Mickey has been working as attorney in the Corporate Law group since 2012. His practice includes corporate transactions as well as corporate governance matters.

Mickey has a background in both business and law. He started with a bachelor in business administration in Rotterdam and completed the master in Amsterdam. At the same time when he was studying for his master's degree at the Vrije Universiteit, he took up law studies. He enjoyed these studies so much that he decided to complete them and to become a lawyer. Mickey graduated with a master's degree in Financial Law.

In his spare time Mickey plays football in the lower divisions in Amsterdam. He loves travelling and has already been travelling through five continents. One of his goals is to visit all seven new wonders of the world before his 35th birthday.
